Recent Reports are from the last 30 days.

You can search for a specific patient under the **Patient Lookup** option.

Different formats are available for viewing and printing your patient reports.

HL7 format is available so you can import the report directly into your EMR. (Contact your EMR vendor about this option)

Patient Lookup

Old Reports are those beyond 30 days old. The same options are available as those in **Recent Reports**.

If you are part of a group practice, we have made it possible to access reports for the entire group, not just your own.
